

Curriculum Intent, Implementation and Impact 2022-2023

Subject History

Year group: 7

Periods per fortnight: 2

INTENT:

History education within The Buckingham School aims to allow students to appreciate how Britain and the wider world have been shaped by their pasts. Additionally, for students to recognise the diversity of societies (in particular British society) and how they have come to be so. Through the delivery of this curriculum, students will build both their substantive and disciplinary knowledge in order to achieve a full and rich understanding of, and appreciation for the development of the histories of local, national and international societies and the relationships between them.

The curriculum will enable the needs of all groups to be met by giving students the confidence and opportunities to ask questions about the past and to develop resilience within a safe and challenging environment. This will be achieved through a combination of depth studies and overview units, all based around enquiry questions that will allow students to develop their substantive knowledge, in conjunction with their knowledge of how historians approach the discipline of history. The curriculum is designed to nurture respect for, and understanding of, different cultures and beliefs, along with an appreciation for how past events have shaped modern societies. The curriculum addresses the school virtues by fostering a learning atmosphere which revolves around having empathy for others and the curiosity to delve into the lives of those who have shaped the world in which we live.

IMPACT:

The impact of the curriculum for this year group will be measured using classwork, homework and in-class assessments.

The in-class assessments are based on the Mastery Curriculum. Students can achieve a grade of Emerging, Developing, Securing, Mastering or Mastery in each of the seven

History skills that are developed during Key Stage 3. The skills are:

- Knowledge and Understanding
- Change and Continuity
- Similarity and Difference
- Cause and Consequence
- Significance
- Using Historical Evidence
- Understanding Interpretations

Each assessment focuses on the key history skill that the students have developed during the unit. Each assessment takes the form of a piece of extended writing, except for the Knowledge and Understanding assessment, which is conducted as a Google quiz.
