

Curriculum Overview

Subject (include exam board if examination subject): BTEC extended certificate

Year group: 12

Periods per fortnight: 8

INTENT:

LEVEL 3 BTEC BUSINESS COURSE CONTENT

The Btec Level 3 course is designed to engage students through topics and issues that are relevant in today's society – they will study key topics such as comparing businesses (global and local), recruitment and selection and finance. Business is a subject that is dynamic, progressive and useful in every aspect of life. It is relevant to all professions whether you choose to start your own business or progress in the business you work for. Anyone with a general interest in business, ethics, the economy, finance, marketing, human resources, management, will enjoy the course. The course is designed for resilient students due to the continuous nature of the coursework. Students have the opportunity to work in teams and are encouraged to work together in paired tasks.

Students also develop greater understanding of local and national businesses (looking at charities, fair trade and business ethics) and become independent learners through their research (a percentage of which is field research). They are encouraged to visit and speak to local businesses and gain an insiders perspective which creates ambition in our students.

The recruitment and selection unit is extremely relevant to students at this time of their life and helps them prepare for the process and the documents that they will have used when entering into the competitive world of work. This unit also requires students to conduct role plays which develops their self-esteem, confidence and communication skills.

Business and Personal finance is one of the exam units that helps their own personal development from a financial perspective alongside a sound introduction to business finance.

Students are able and encouraged to conduct extended reading on this course with particular emphasis on the news and to be aware of business decisions made so the effects can be discussed in the classroom. This course prepares our students for further education, apprenticeships and the world of work.

Term	Topics studied Add dates and any assessments included	Extended learning opportunities (homework, controlled assessments, field work, trips etc.)	How parents could support students
